Driving License: Category B (2020)

Professional Profile

IT Engineer specialized in networks and distributed systems, with experience in web development, network administration, and IT infrastructure management. Skilled across the full technical lifecycle—from architecture design and deployment to security and operational maintenance.

I bring a performance-driven and rigorous approach, focusing on reliability, security, and scalability of IT environments. A strong team player with a high level of autonomy, I contribute to continuous improvement and deliver innovative solutions that meet production and service quality requirements.
